This week's editorial explores the issue of junk food in schools.

Spring Term

Issue 1

Should Junk Food be Banned from School Canteens?

Junk food should not be served in canteens because it can cause illnesses such as heart disease. Also it can become a big problem with a child's weight. In fact in the USA between 16% - 33% of children are overweight. That is why our school should be reinforcing healthy eating in schools. Also, teachers should be checking lunch boxes to ensure they are not filled with unhealthy

food.
