

REPTON  
DUBAI

# Admissions Policy

June 2023

## 1. The Rationale:

Repton broadly follows the National Curriculum for England in our Primary and Secondary Schools with Sixth Form students undertaking courses in either the International Baccalaureate or A levels.

The school year runs from September to July; children can be admitted to Repton during the school year if a place becomes available (subject to KHDA guidelines).

Repton is oversubscribed in certain year groups and places may become high demand. For this reason, Repton cannot take every pupil who applies to the school and thus has procedures in place for the allocation of places, including a 'waiting list' policy, available on request.

This policy outlines the procedures by which Repton offers places at the school.

The school's admissions policy is guided by the stipulations of the ***Dubai Inclusive***

***Education Framework (DIEPF)*** (Published November 2017).

The school's admission policy adheres to the stipulations of the UAE Federal Law

No 29 of 2006 concerning the Rights of People of Determination

The school's admission policy adheres to the stipulations of the Dubai Law No 2 of 2014 concerning the Protection of the Rights of Persons with Disabilities in the Emirate of Dubai

The school's admission policy adheres to the stipulations of the ***UAE Executive Council***

***Resolution No. (2) of 2017 Regulating Private Schools in the Emirate of Dubai***

(In particular, Article 4 clause 14; Article 13, clauses, 16, 17 and 19; Article 23 clause 4).

Article 4 Clause 14: To establish the conditions, rules, and standards that are required to facilitate the enrolment and integration of Students with disabilities in Private Schools.

Article 13 Clause 16: To treat its students equitably and not discriminate against them on grounds of nationality, race, gender, religion, social class, or special educational needs of Students with disabilities.

Article 13 Clause 17: To admit Students with disabilities in accordance with the terms of its Educational Permit, the rules adopted by the KHDA, and the relevant legislation in force.

Article 13 Clause 19: To provide all supplies required for conducting the educational activity, includes devices, equipment, furniture, and other supplies which the KHDA deems necessary, such as the supplies required by Students with disabilities;

Article 23 Clause 4: To provide a special needs friendly environment and academic programmes appropriate for Students with disabilities in accordance with the rules and conditions determined by the KHDA and the concerned Government Entities in this respect.

## **Equal treatment:**

We welcome children from many different ethnic and racial groups, backgrounds and creeds. Human rights and freedoms are respected but must be balanced with the lawful needs and rules of our School Community and the rights and freedoms of others. All candidates for admission will be treated equally, irrespective of their, or their parents' religion, belief, sect, faith, creed, race, colour or ethnic origin.

## **2. Inclusion and Special Educational Needs:**

The school welcomes students of determination.

The school is committed to

- a) ensuring that admission to the school is not conditional upon the submission of a medical diagnosis; (*DIEPF* Standard 1.1)
- b) ensuring students are not refused admission based only on their experience of SEND; (*DIEPF* Standard 2.1)
- c) ensuring students who experience SEND will receive “sibling priority for admission to a specific school or educational programme; (*DIEPF* Standard 2.2)
- d) ensuring that students who experience SEND will be guaranteed the right to receive quality education and training in all types and phases of schooling across Dubai; (*DIEPF* Standard 2.3)
- e) ensuring that students who experience SEND will be actively supported to participate in the process of learning as they develop their potential, and build relationships with their peers, through social interactions in age-appropriate common learning environments; (*DIEPF* Standard 2.4)
- f) providing access to appropriate provision, resources and curricular options for students of determination.
- g) ensuring that students who experience SEND will be provided with the support, accommodations and curricular modifications required to enable equitable access to educational opportunities; (*DIEPF* Standard 2.5)
- h) ensure they promote the principle of equity for students who experience SEND. (*DIEPF* Standard 2.6)

The school will comply with its legal and moral responsibilities under UAE law, in order to accommodate the needs of applicants.

The school is committed to making its admissions procedures accessible to students who experience SEND. For this reason, the school needs to be aware of any known disability or special educational need which may affect a child's ability to participate in the admissions procedure, so that it can make adjustments to its standard admissions procedures to accommodate applicants who experience SEND and that the School can cater adequately for the pupil should an offer of a place be made.

Parents of a child who experiences SEND should provide the school with full details *prior* to the admissions procedure, at registration, or subsequently before accepting the offer of a place.

The school will do all that is reasonable to ensure that the information and application procedure is accessible for disabled candidates and will make such reasonable adjustments as necessary. For example, the school may be able to provide an examination paper in large font for a visually impaired pupil.

See the [School Inclusion and SEN Policy](#)

## **3. Admissions to Early Years (FS1 and FS2)**

Repton School Early Years Department considers the following things before admitting a pupil:

- 1) Age on 31<sup>st</sup> August: the school will work with parents to identify their appropriate year of entry, particularly for those born between Sept 1<sup>st</sup> and December 31<sup>st</sup> - Age cut of date is 31<sup>st</sup> august only, as per KHDA rules
- 2) Previous curriculum studied
- 3) Reports from Nursery or Relevant Agencies
- 4) Observations or Profiles of the Child if available

Our Admissions Procedure:

- Children are registered for Repton Dubai using our admissions form.
- This form tells us the age of the pupil and from this, we are able to work out their age on 31<sup>st</sup> August, and therefore, the Year Group that the child should enter according to the UK curriculum or the KHDA 13-year school system.
- The child is invited for an assessment on site, or this can be conducted at an associated Nursery. This assessment is age appropriate; the assessments use the development stages of the EYFS which are appropriate to the age of the child and the year band of entry. – this will need to be changed all assessments are now conducted remotely, FS –year 1 pupils are required to share with us the video of the child recorded by the parent during play time. Year 2 to Year 12 pupils the children sit an age-appropriate Cognitive Ability Test (CAT) remotely on zoom platform. There are cases when child would be offered a place based on school report only.
- For admission to Repton, we expect that children will fall within the expected level of the UK EYFS curriculum for the specific year band.
- If a child falls well below the required level a place might not be offered. At times we may invite children back for an assessment at a later date. If a need is identified at the assessment, we may invite a child back for a second assessment with specific support staff to assess the full nature of a child's needs and to ensure that as a school we put the most effective provision in place for every child. Reassessment usually happens 6 months after. Children who are emerging, which is lower than the expected standard are sometimes offered places in lower year groups. These decisions are made on a case-by-case basis by the Head of the respective key stage.
- The parents are informed of their child's performance in a letter that details the results, and in some cases limited feedback may be offered to parents. In most instances the results will be limited to a pass or fail mention.
- At times there may be a need to place conditions on offers, to ensure that the correct support is in place for the child.

#### **4. Admissions to Junior School**

Repton Junior School considers the following things before admitting a pupil:

- 5) Age on 31<sup>st</sup> August; the school will work with parents to identify their appropriate year of entry, particularly for those born between Sept 1<sup>st</sup> and December 31<sup>st</sup> - age cut of date is now 31<sup>st</sup> august only.
- 6) Academic potential.
- 7) Pastoral references.
- 8) Previous curriculum studied.

Our Admissions Procedure:

- Children are registered for Repton Dubai using our admissions form.
- This form tells us the age of the pupil and from this, we are able to work out their age on 31<sup>st</sup> August, and therefore, the Year Group that the child should enter.
- The child undertakes an entrance test. This test is age appropriate, and results will be compared against the strength of current pupils studying at the school in similar year and age bands.
- For admission to Repton, we expect that children will fall within the average band of our current pupils, that is, obtain an equivalent score to those already in attendance in our school.
- If a child falls well below the required level a place might not be offered.
- Children who fail to make the expected standard are rarely offered places in lower year groups. These decisions are made on a case-by-case basis by the Head of the respective key stage.
- Pass or fail, the parents are informed of their child's performance in a letter that details the results, and in some cases limited feedback may be offered to parents. In most instances the results will be limited to a pass or fail mention.

## **5. Admissions to Senior School (ages 11-16)**

Repton Senior School will consider the following prior to the admission of a pupil:

Age on 31<sup>st</sup> August.

1. The current year group (English system) or grade (American system) that the prospective pupil is in. Except in the case of transferring from the Southern Hemisphere to the Northern Hemisphere (where we will ask them to sit for a test in the correct age group), pupils have to have passed through the previous year/grade to get into the following year at Repton.
2. Pastoral references
3. Academic potential.

Our Admissions Procedure:

- Children are registered for Repton School using our admissions form.
- This form tells us the age of the pupil and from this, we are able to work out their age on 31<sup>st</sup> August and therefore, the year group that the child should enter.
- The child undertakes an entrance test. This test is age appropriate and tests a child's ability for the correct year group.

Towards the end of Y6, however, the children sit an age-appropriate Cognitive Ability Test (CAT) to give the Senior School an indication as to their academic potential and whether the Senior School is best suited to meet the academic needs of each pupil. It would be expected that, if the CAT was to indicate that the ability to flourish might present a problem for individual children, this would have been recognised much earlier and appropriate action taken by the school and the family concerned.

Based on the results of this test, recommendations as to which particular educational pathway might be most suitable for each individual child will be made. Parents might wish to consider alternative arrangements for the child's senior school education.

## 6. Admissions to Sixth Form (Post-16)

The post-16 provision at Repton Dubai consists of several pathways with each student selecting the most suitable route based upon their personal career objectives and academic ability. From a wide variety of A Level Courses and more vocational BTECs, to the scope of the IB Diploma Programme we have a bespoke and exciting pathway for every student.

Students are offered the option of A Levels, BTEC, a mix of both or the IBDP. Work will be undertaken during Key Stage 4 with the Careers, Advice and Guidance Support to ensure that **pupils** and their parents are fully informed of the options available to them and the resulting further and higher education routes. Students are guided to ensure they achieve their full potential and leave Repton with a broad and balanced suite of qualifications, to enable them to access higher education. Adding a wider range of BTEC courses to the offer in post-16 will help to further support this.

The entry requirements for students who have been studying in British curriculum schools are as follows:

- **A Level-** The general entry requirements for the A Level pathway are six GCSEs at Grade 6 or above (or equivalent) including English Language and Mathematics. The pathways will require students to sit a minimum of two A Level courses, but most students will opt for a choice of three subjects. The choice of two or more A levels will be in line with Article 6f of Decree 883 – from the list (of A level subjects) defined by the relevant Ministry regulations. We will ensure that we use the approved list to design the curriculum. Students will be directed to follow a curriculum based on their ability and prior attainment at IGCSE level. This will also take in to account their pathway to Higher Education and university, working with our careers advisor and tutors.
- **BTEC-** For the BTEC pathway the general entry requirements are five GCSEs at Grade 5 (or equivalent) including English Language and Mathematics. Any students wishing to study a combination of A Level and BTEC, the entry requirements will be considered on an individual basis. Some A Level and BTEC subjects have higher or additional requirements as outlined in the British Curriculum Options Booklet.
- **EPQ-** We also offer The Extended Project Qualification (EPQ) to support further learning and development of the A Level and BTEC students. The EPQ attracts a UCAS points score equivalent to an AS Level for candidates applying to Higher Education institutions in the UK.
- **IBDP-** The general entry requirements for the IBDP pathway are six GCSEs at Grade 6 or above (or equivalent) including English Language and Mathematics. For entry onto Higher Level (HL) subjects a Grade 7 or above (or equivalent) at IGCSE is required. Students must meet the grade requirements for three SL and three HL subjects, which are outlined in the International Curriculum Options Booklet.

For students coming from outside of the British system, evidence is required that the subject options selected for A Level, BTEC or the IBDP have been successfully studied in Year 11. Each student will be assessed on a case-by-case basis.

In all cases a CAT4 test is taken as part of the admissions process, to ensure the suitability of the student for any given programme. Low mean SAS scores may result in students being directed towards vocational options. Students are not accepted onto the A2 or IB2 courses as external applicants.

## 7. 'Year Groups' and 'Grades'

The British education system is based on a programme of education that may last for thirteen (13) years. Other education systems around the world follow a 12 year system. The 13 year British cycle is organised in year groups, the 12 year cycle is organised in 'grades'.

British Year Groups and American/Australian Grades are not synchronised. Nevertheless, the content of the curriculum and academic expectations in core subjects is broadly similar across age groups. Therefore it is possible to formulate a 'table of equivalences' to clarify the transfer of pupils between grades and year groups. (see Fig 1).

From the table below, we can see that a pupil who is 7 years old on 1<sup>st</sup> September will be admitted to the Grade System in Grade 2 and the British system in Year 3. However, this child's previous educational experience, and therefore academic level, will be broadly the same. If the child were to be transferred from Grade 2 to Year 2, the child would be a year older than his classmates and would, in effect, be repeating the same work. Therefore, for the child's education to progress as it should, the child should transfer from Grade 2 to Year 3. **This allows for continuity, it does not represent promotion.**

**Fig. 1 Table of Equivalences**

<b>Grades of Students in 12 Year System American/Australian</b>	<b>Year Groups of Students in 13 Year System British</b>	<b>Age on 31<sup>st</sup> August</b>
Nursery	Nursery (FS1)	3
K.G. 1	Reception (FS2)	4
K.G.2	Year 1	5
Grade 1	Year 2	6
Grade 2	Year 3	7
Grade 3	Year 4	8
Grade 4	Year 5	9
Grade 5	Year 6	10
Grade 6	Year 7	11
Grade 7	Year 8	12
Grade 8	Year 9	13
Grade 9	Year 10	14
Grade 10	Year 11	15
Grade 11	Year 12	16
Grade 12	Year 13	17

It is important to note that should a pupil come from a school system that starts in the winter months, they are tested and then placed with the appropriate class based on the age and results. In that such students have completed two terms in their home country, it is likely they would be put ahead (missing one term) rather than back (two terms).

**Other Non-Academic Considerations**

- 1) Once a place is offered and accepted the parents of the successful pupil must submit all the registration documents required by KHDA and UAE authorities.
- 2) The pupil has no issues with the previous school, such as disciplinary or financial.
